

The Janesville Daily Gazette.

VOLUME 27. Entered at the Post Office at Janesville, Wis., as second-class matter. JANESVILLE, WISCONSIN, FRIDAY, OCTOBER 12, 1883. Published Every Evening Except Sunday, at \$6 a Year. NUMBER 187

Look out for an Ohio man in 1884.

The democrats have at last blundered into a victory.

The malaria seems to have lent a good deal of inspiration to the Ohio democrats.

The home and the school house have been pretty handsomely endorsed in Iowa.

The election of Hoadly is the first blood for Tilden. The old fox will not drown yet.

The democratic profession has the sympathy of the country. Langtry is on her way to America.

When General Sherman is retired next winter by reason of reaching 64 years, he will receive \$15,000 a year during his lifetime.

The Ohio democrats will probably tender a vote of thanks to the prohibitionists in that state. Without the latter they couldn't have elected Hoadly.

It will be in order for some one to start a boom for Hoadly for president. Every successful democrat must get a little boost for the white house.

The Mad of the Mist is a very courageous little craft. She ran the lower rapids of Niagara on Wednesday, and remained in the whirlpool ten minutes.

The later the returns from Iowa, the greater grows the plurality of Governor Sherman. It will be between 25,000 and 30,000, and over both Kinne and Weaver from 12,000 to 15,000 majority.

The government is no longer run by subordinates. For the first time in many weeks, all the heads of the departments including the president, were at their posts on Thursday.

It would be a good thing if all further presidential booms could be choked off for a while. It will be time enough for these booms when the frost is out of the ground next spring.

The news dealers at Burlington, Iowa, have set an example worthy of imitation by all news dealers throughout the country. They have discontinued the sale of the infamous Police Gazette.

Mr. A. C. Hosing, of Chicago, settles up with the government very satisfactorily to himself. Secretary Folger accepts \$1,250 as a compromise on a judgment of \$80,000. The judgment was obtained in one of the whisky suits.

"Our Carter" took the stump in Iowa for Judge Kinne, and Judge Kinne, was beaten by some 30,000. It would have been a good thing for the republicans if "Our Carter" could have gone to Ohio instead of Iowa.

Dr. Talmage wants little "Phil" Sheridan to go to Utah and clean out the polygamists. General Sheridan could go it on short notice and with lively earnestness. If law can't wipe out the disgrace why not try the military with the gallant Sheridan in command?

The reason why Connecticut goes democratic: "Connecticut lies between New York and Massachusetts, the two wickedest states in the union, and in the natural great centers of crime between these two great centers of crime they make a sort of highway of Connecticut."

The congressional election in the Sixth district of Iowa, still seems to be in doubt. One day the chances seem to be in favor of Judge Cook, the democratic candidate, but the next day the returns favor the election of Stiles, republican. It may require a canvass of the votes to decide who has the congressional plum.

It is very evident that Loren E. Sossanus, who is charged with attempting to bribe Assemblyman Bradley, of New York, in the senatorial contest of 1881, will be acquitted. One of the jurymen, Mr. Goodfellow, says he didn't know that Roscoe Conkling was ever in the United States senate. He is a good fellow to have on such an important jury.

Dakota does not intend to allow the educational interests of that territory to suffer for lack of funds. Every eighteenth section of land has been set apart for educational purposes. These lands cannot be sold for less than \$10 per acre, and large tracts, it is thought, will bring more. They aggregate 5,500,000 acres, and are valued at \$82,500,000. This is better than permitting the land to go into the hands of speculators.

Gould is trying to unload some of his money without actually throwing it away. He has the most costly yacht in the world. He now proposes to build a magnificent hotel and establish a great park at Burn's Point, not far from Newport, and thus compete with the latter place for summer visitors. Gould is not happy unless he is lavishly spending his money trying to beat some one.

Another new route to the Pacific will be opened on the 20th of this month, at which time through trains from St. Louis to San Francisco will begin to run. The route is from St. Louis over the "Frisco line" to Hialeah, thence over the Atchafalaya, Topeka & Santa Fe to Albuquerque, thence over the Atlantic & Pacific to the Colorado river, and on to San Francisco over the Southern Pacific. The route is 200 miles shorter and twelve hours quicker than the present Southern route via Deming, but there will be no reduction of fare.

After all the clamor in California for a restriction of the immigration of Chinese to that state, there is great lamenting among the horticulturists because Chinese labor is scarce, and they ask the question, "What shall we do?" The answer to this is: "Go to work yourselves." A white man, who works for wages on a California farm is expected to have his own blankets, sleep in the barn, and get his meals on a tin plate at the rear kitchen door. When work slackens up, he unavoidably becomes a tramp.

A New York paper recently published a list of the millionaires of that city, and General Grant's name was among them. He was surprised to find himself in the list, but he said by putting in his children and grand children at an average value of \$92,500 each, he thinks perhaps he can figure up that total. Let us see; he has four children and four grand children, which at \$92,500 each would aggregate \$800,000. This would make General Grant's estimate of his own wealth a about \$500,000.

THE OHIO SURPRISE.

One of the most unexpected happenings of the present fall was the democratic victory in Ohio. The democratic party in that state was in a quarrel all through the campaign. Judge Hoadly, who used to be a staunch republican, was nominated for governor over General Ward, an old-time democrat, and the fact that it was charged that Hoadly bought his nomination at a big price, disgusted the Thurman ring of the democracy, and the quarrel was kept up during the entire campaign. Hoadly was also sick for several weeks, and could not take an active part in the canvass. There was also a bitter strife going on in the democratic party as to the senatorship, which seemed to blast all hopes of democratic success.

On the other hand, the republicans were well organized, compact, and hopeful. It is true, however, that they went in to the canvass somewhat handicapped, as that party was the champion of the Scott law which fixed a tax upon the liquor traffic, and was more or less loaded with the prohibition amendment. But with a splendid organization and a strong vitality, the republicans had every reason for being confident, and therefore counted on a majority for Foraker of from 10,000 to 20,000. But the vote-givers and the wine-makers and thousands of prohibitionists flew to the relief of the democrats, and Hoadly and free whisky won the day.

The mischievous vote in Ohio this fall, makes that state all the harder for the republicans to carry in 1884. It makes it like New York, a doubtful state, and too many of these states very much lessen the chances of the republicans next year. But "there is a world of vitality in the republican organization" and no republican can be found who will yet give up the election in 1884.

ILLITERACY IN THE SOUTH.

The census shows that the whole number of males of twenty-one years and upwards in the southern states who cannot write are 1,389,944, nearly one-third of the voting population of the sixteen states included in the division called the south. It will be surprising to learn that of this great number 410,550 are whites, the remainder, 979,394 being blacks. It is a fact worthy of note that Kentucky is the only state in the sixteen in which the uneducated whites outnumber the uneducated negroes.

The south is not doing much for popular education. Three years ago there were hundreds of counties in that section of the country that could not boast of a single school-house, and as a rule, where there was no school house there was no newspaper. With this condition of things, it is no wonder that both whites and the blacks lack the enterprise and intelligence that form the crowning glory of the north. But the south is improving somewhat—in fact a good deal of late—and by the time the next census is taken, a better condition of things will be shown.

The southern states have been occupied lately as a missionary field by the Protestant Episcopal church, and the report made by the present general convention of that body, is not very flattering. The bishops seem to be very much discouraged, and how to work among the illiterate whites and blacks in the south with more success, was one of the grave matters for the convention to consider. The bishops do not appear to be practical in their ideas concerning church work among the ignorant. The first thing that needs to be done is the establishment of the common school system in all the counties in the southern states, for the illiterate people that direct instruction may be given them. When a man, be he white or black, knows how to write and read and can carry with him some of the useful knowledge gathered from books, he will be better able to practice, enjoy, and emulate a christian life. Teach the southern people how to read the newspapers and books, and the question of religion among them will not be so grave a matter as the bishops of the Episcopal church now find it.

No medicine like Baxter's to prevent contagious diseases. Price 25 cents. Sold by Stearns & Baker.

A Clergyman's Testimony.

W. L. Gifford, pastor of M. E. church Bothwell, Ont., was for two years a sufferer with dyspepsia in its worst form until he used Baxter's Food. He actually buried three bottles of Baxter's Food. It cured him, and he tells us in a re-

cent letter that he considers it the best family medicine now before the country for dyspepsia and liver complaint. Palmer & Stevens and Sherr & Co.

THE ELECTIONS.

The Rout of the Republicans in Ohio Last Tuesday was Most Complete.

Judge Hoadly's Majority Over Foraker Is Now Estimated at About 13,000.

The Legislature Overwhelmingly Democratic—List of the State Senators-Elect.

The Result in Iowa—The Official Count Will Be Required in the Sixth Congressional District.

Ohio.

CORVAXUS, Oct. 12.—Complete but unofficial returns from all of the eighty-eight counties of the State show Hoadly's plurality over Foraker to be something over 13,000, but the rest of the ticket is less than 12,000. Hoadly has not a majority of all, as the prohibitionists cast more votes than his plurality, while the Greenbackers poll a little over 1,000 in a total vote of over 700,000. The Prohibition Amendment got over 300,000 votes.

Foraker made the most brilliant campaign of any candidate for Governor. Hoadly gained friends by the abuse heaped upon him and his sickness, and came back for the last week of the campaign just at the right time, and when the trading by the Republicans for him in the country and against the Second Amendment in the cities was at high tide. In Cuyahoga and Hamilton counties the legislative delegations are divided. The Senate stands 32 Democrats to 11 Republicans; the House, 63 Democrats and 43 Republicans, being a majority of 23 on joint ballot for Senator.

The Second Amendment fell at least 40,000 short of a majority, receiving a total of about 200,000 votes. The Judicial Amendment is carried beyond a doubt. The first Temperance Amendment will not get over 100,000 votes. The vote for the Prohibition State ticket is estimated at from 5,000 to 20,000.

The Senatorial Districts and successful candidates are as follows, by counties: Hamilton, William Caldwell, William L. O'Brien, A. J. Pruden, Democrats. Butler and Warren, G. F. Elliott, Democrat. Montgomery and Preble, Simon Bremer, Democrat. Clermont and Brown, J. E. Myers, Democrat. Green, Clinton and Puyell, Jesse N. Oren, Republican. Highland and Ross, W. H. Reed, Democrat. Adams, Pike, Soloto and Jackson, John W. Greig, Republican. Athens, Hocking and Fairfield, C. S. Welsh, Democrat. Franklin and Pickaway, A. R. Vancleave, Democrat. Champaign and Madison, S. W. Dindigler, Republican. Miami, Darke and Shelby, A. C. Cable, Democrat. Logan, Union, Marion and Hardin, J. J. Hare, Republican. Washington, Morgan and Noble, Gilbert Smith, Democrat. Muskingum and Perry, John O'Neill, Democrat. Knox and Morrow, Allen Levinger, Democrat. Coshocton and Tuscarawas, W. G. Crowell, Democrat. Belmont and Harrison, Solomon Hague, Republican. Jefferson and Columbiana, J. M. Dickinson, Republican. Carroll and Starke, J. V. Lewis, Democrat. Trumbull and Ashtabula, A. B. Fassett, Republican. Ashtabula, Lake, S. H. Wolcott, Republican. Cuyahoga, A. J. Williams, Democrat; George H. Ely, Republican. Medina and Lorain, T. G. Loomis, Republican. Huron and Erie, Godfrey Jaeger, Democrat. Seneca and Crawford, J. H. Williston, Democrat. Allen and Augusht, T. J. Conroy, Democrat. Elmore, Adams, Fulton and Hancock, W. H. McLymont and O. R. Ranney, Democrats.

CINCINNATI, Oct. 12.—Judge Hoadly spent several hours in his office, where he was visited by a large number of friends to congratulate him. He shows evidence of weakness, but endures bravely the task of continuous bookkeeping. Much time was consumed in receiving and reading telegrams of congratulation. Among them were this: "Yours, N. Y., Oct. 12.—I congratulate you on your brilliant triumph. S. J. Tilden."

Telegrams were received from Senator Jones, of Louisiana, Robert Garrett, of Baltimore, Senator McDonald, August Belmont, and many others.

Iowa.

THE RESULT.

DES MOINES, Ia., Oct. 12.—The Democratic State Committee has closed its rooms, and Mr. Kinne and Mr. Sells have gone home. The Republican headquarters will be closed to-day. The size of Sherman's plurality is still uncertain, but will probably fall within the democratic concession of 15,000 and the Republican claim of 30,000. The large Republican towns have done as much to reduce the usual Republican majority as the active canvass made by the Democrats. But the rural districts have stood well by the school-house on the hill. The Sixth District, which was conceded all day by the Republicans to Cook, is again claimed for Stiles. It is asserted by Chairman Dorman that returns from two outlying precincts have reduced Cook's majority to less than a hundred, and that returns have been forwarded in one of the Malheur County precincts. A contest, it is said, will be begun.

Ex-Congressman Wolf, who was defeated for Speaker last session by Mr. Struble, is here, and has renewed his candidacy. It is thought by Governor Carpenter's friends that he may also be a candidate, but they do not say so positively. The slight reduction in the Republican membership of the house which is conceded has put the prohibitionists in considerable trepidation regarding the laws that were the real issue of the campaign. The Legislature will stand as follows: House—Republicans, 50; Democrats, 35; Greenbackers, 5.

Ring Rule in St. Louis.

ST. LOUIS, Oct. 12.—The Police Commissioners put a carpenter at work at midnight, and succeeded in locking out of office the chief, whom they had removed without charges. Citizens of East St. Louis allege that they will prove the existence of an arrangement by which a party of Chicago thieves were allowed to operate at the relay depot during last week on condition of dividing the spoils with city officials.

A Young Lady's Queer Death.

SHRANTON, Pa., Oct. 12.—A friend called upon Jennie Noon, at her home, last week, and expressed surprise at finding her alive, having heard of her death. The young woman fell to the floor, in a swoon, and remained unconscious until her death, which was just occurred.

MURDERED AT NOONDAY.

A Feud Between Two Rival Baltimore Democrats Results in the Death of One.

BALTIMORE, Md., Oct. 12.—James F. Buzzy, a noted local politician and city official, was shot four times and fatally wounded at noon Thursday in front of the City Hall, by William F. Harig, also a political leader. Both men were Democratic and rival managers, and there has been a feud between them for years. At Wednesday's primaries there was a bitter contest over the sheriff's office, and Buzzy's man won. Thursday as Buzzy came out of City Hall he was met by Harig and a man named Peter. Words passed, and Buzzy made an effort to draw a pistol, when Buzzy drew his revolver and struck Harig on the head. The two men then opened fire at close range. One of them was heard to exclaim: "One of us must die." The crowd scattered in terror, and after a dozen shots had been exchanged Buzzy staggered back and asked to be taken to a doctor. Harig had fired with deadly effect, four bullets striking Buzzy, four of them in the abdomen. John Manigan, a bystander, was shot in the arm. Harig was untouched, all of Buzzy's bullets going wide of the mark. Buzzy is believed to be dying, and has taken leave of his family.

Harig is confined at the Central Police Station under a strong guard, as Buzzy's friends threaten to kill him. He says he is glad his shot had fatal effects, as he shot to kill. Buzzy leaves a large family, and has held a number of prominent positions.

GOVERNMENT BONDS.

Another Call Contemplated by the Treasury.

WASHINGTON, Oct. 12.—The daily receipts of the Government from customs and internal revenue are so heavy that the surplus in the Treasury is kept at an unusually high figure. Thursday it reached nearly \$157,000,000, and suggested the possibility of another bond call by the Secretary to reduce the margin. Mr. Folger, when informed of the figures, asked for estimates from the warrants drawn of the amounts required out of this sum to meet various obligations. The requirements of the Pension Office will be the main item in determining how large a call can be made. The 191st and final call of 35¢ per cent. bonds for over \$50,000,000, which was divided into weekly calls of \$5,000,000, has not yet been completed. The bonds are coming in very slowly, the receipts for redemption this week not exceeding \$250,000, while the total has only reached \$23,000,000. The policy of the Treasury Department in the future will be more judicious and smaller calls than heretofore, and the three per cent. indebtedness will gradually be reduced. It is not expected that these calls will inconvenience the National Banks very much, as there are but few of the threes now on deposit to secure circulation.

Particulars of the Latest Cyclone.

LA CROSSE, Wis., Oct. 12.—Details of the cyclone that struck the little town of Arcadia Monday night show that it came from the south-west. Upon its approach the air was so charged with electricity that lights could not be made to burn, and people rushed to their cellars in the darkness to avoid the danger which seemed imminent. The atmosphere was of a peculiar reddish-green color, with a strong sulphur odor; the deafening roar of the tornado was utterly indescribable. Barns and outbuildings were lifted from their foundations, torn to fragments and scattered promiscuously in all directions. Broken beams, trunks, boxes and stones filled the air, and were hurled with such violence in some instances as to drive them through the sides of the buildings. The total damage will reach \$25,000. Mrs. Bessey and Miss Pira, who were the most seriously injured by their falling residences are considered out of danger. The cyclone seems to have spent its force up the North Creek Valley, doing the usual damage to property, but causing no loss of life.

Close of the Street Railway Convention.

CHICAGO, Oct. 12.—The Convention of Street Railway Superintendents has come to an end. The following officers were elected: W. H. Buzzard, of Brooklyn, President; J. K. Lake, Chicago, First Vice President; G. B. Kesper, Cincinnati, Second Vice President; D. F. Lonsreger, Providence, Third Vice President; Secretary and Treasurer, W. J. Richardson, Brooklyn. The Executive Committee consists of the following gentlemen: J. H. Little, Louisville; J. G. Holmes, Pittsburgh; J. E. Rugg, Boston; P. C. Mailet, St. Louis; and Joseph Sharpe, New York. The next meeting of the Convention will be held in New York City in October 1884.

Great Profits.

NEW YORK, Oct. 12.—The earnings of sixty-nine railroads for the past month were \$27,892,082, against \$28,939,087 in September, 1882. Since January 1, 1883, the roads earned \$205,653,835, against \$190,301,037 for the same period last year, an increase of \$15,352,797. This was earned on 51,730 miles of road this year, against 47,250 miles in 1882. The statement includes the operations of the South-western, the Grangers, Northern Pacific, Manitoba, Grand Trunk and other leading companies.

An Alleged Swindler of Pensions.

GAREES BAY, Wis., Oct. 12.—W. H. Bartan, United States Examiner of Pensions, has been arrested on a charge of extortion in exacting excessive fees from pensioners, and was taken to Milwaukee by United States Marshal Henry Marshall. He waived examination, and was held for trial in the sum of \$500. He will plead guilty as soon as he can raise money enough to cover his aggregate fines.

Well-Fixed Chinese Excursionists.

SAN FRANCISCO, Oct. 12.—The steamer Hong Kong carried away nearly twelve hundred Chinese, the largest number that ever sailed from this port. Of this over one hundred were provided with return certificates. An item worthy of record was that every one of the twelve hundred carried off with him from \$500 to \$1,000.

Disastrous Floods in Spain.

MADRID, Oct. 12.—Heavy rains recently in the Province of Castellon de Laplaya flooded that section of the country. Several miles of railway track were carried away and two bridges destroyed. Five villages were partially submerged and several lives lost. Fields and orchards sustained great damage.

Female Suffrage in New York.

LAKESIDE, N. Y., Oct. 12.—At the school election, Wednesday, the ladies cast 225 votes out of a total of 1,000. A number of women were challenged, it being alleged that they were imported from Troy. Several negroes were also present.

Dr. Townsend's celebrated Remedy for Hay Fever, Asthma, and Catarrh, used and recommended by Rev. Henry Ward Beecher. Sold by Stearns & Baker.

WE WARRANT EVERY BOTTLE OF DOW'S LIVER CURE.
Many people doubt the genuineness of testimonials which are many times given by persons unknown. But who will question the following one furnished by the Hon. C. C. Williams? My family have given Dow's Liver Cure a thorough trial, and we can unhesitatingly pronounce it worthy of all that is claimed for it by the proprietor.

The Hon. Wm. H. Ebbetts, of Milwaukee, says: "Myself and family are using Dow's Liver Cure, and believe it to be the most reliable medicine for biliousness, sick headache, etc., that has yet been introduced in this country. It has cured our family of all those chronic diseases so prevalent in this western climate. It has no equal in our medicine cabinet."

We, the undersigned, have used Dow's Liver Cure ourselves and in our families for many of the diseases for which it is recommended, and we pronounce it a most reliable and efficacious medicine, and unhesitatingly recommend it to all sufferers.

HAIR GOODS.
MRS. W. H. SADDLER
JANESVILLE, WISCONSIN.
Manufacturer and Dealer in Ladies' Hair Nets and all kinds of Human Hair Goods.

Janesville Agency.
Joseph Schlitz Brewing Comp'y
Of Milwaukee, Wis. Represented by
EPHRAIM BOOTS.
will keep constantly on hand a full stock of the celebrated Schlitz Milwaukee Lager Beer which will be delivered at all times to the trade of Janesville. Headquarters in Port. Corner Block, West Milwaukee St. Janesville, Wis. Janesville.

W. H. GROVE.
North First St. Janesville, Wis.
All work done is warranted First Class. A specialty made of Horse Shoes also have a specialty made of the celebrated Locks' Horse Shoe and Pad. With this shoe combined the shoe is made of the best material and is made to last. It is the only shoe that cures the horse's foot without causing any irritation.

ST. LAWRENCE'S "THOUSAND ISLANDS."
Geo. W. Peck in Peck's Sun.
There is found in almost everything, and who knows but they are playing one hundred island on us for a thousand. Anyway, they are very nice, and somebody had a good head that stuck them in there so thick, but they do not look like the pictures of the islands. In the pictures the islands are represented as being very beautiful, down to water, with grassy lawns and forests of grand shade trees and cottages of the finest architectural design. Aside from a dozen or so, the cottages are not as beautiful as are to be found at Wisconsin resorts, and few of them have any grassy lawns, but nine-tenths of them are rocky, barren places, the rocks only fit to paint signs for axle grease and paint-killer, and not enough verdure to feed a goat unless you give him an occasional tomato can to eat the kind of off. What people build cottages there for, and exile themselves where they cannot be reached except in a skiff, when there is so much of the beautiful main land to be had, is more than I know, but may be it is because, as Ingels says of hell, "the evenings are cool there." The boat goes rapidly down the river, and after passengers have seen the islands the novelty wears off and they act as though they wouldn't take an island if it were quit to them.

WHY BE QUIET DRINKING.
Chevrolet Saturday Night.
"Yes, sir," said he, "I've quit drinking, and I'll tell you why."
He was talking to the minister, who had dropped in to pay his wife (one of the fold) a pastoral visit.
The minister listened attentively and delightedly, for he fully expected that it was owing to his counsel that the wise step had been taken.
"I've listened over and over again to your sermons," here the minister nudged approvingly, "at funerals, and I could see that it was pretty hard work for you to say something pleasant even about the best of them, and when it came to a discourse over some fellow that died of drink you would have more trouble in five minutes than a man ought to have in six years. When I die I don't want to put a man in such a fix as that. I don't want any of the 'his worst enemy' or 'he had his faults, who of us have not?' or 'I never drew the mantle of charity' or anything else of that kind said about me, and that's why I quit drinking."

ARMY OF THE POTOMAC.
On the Chickhomby.
Under date of May 8th, 1889, Colonel S. P. Tibbitts of the U. S. Army of the Potomac, in the swamps of the Chickhomby, contracted a complication of diseases that culminated in spinal trouble, paralysis on one side, and severe disease of the kidneys and bladder, and great general weakness. For a long time I was under the treatment of the best physicians, and tried many of the so-called remedies, but received no permanent benefit. When I was the drug business in Boston, I heard favorable accounts of the efficacy of Hunt's Remedy, and having decided to give it a trial, I purchased some at Wingate's drug store, Dorchester, Mass., and have received great relief from using it. The severe pains in my back are removed, and I am able to sleep soundly and obtain rest at night, which for so long a time I could not do, and the weakness in the urinary organs has been relieved, and I greatly regret that I did not test the great merits of Hunt's Remedy when I was first taken sick. I am confident it would have saved me from several years of suffering, and I am more strongly convinced of its value after bearing of the most remarkable cure effected by Hunt's Remedy in a case of Bright's disease here given in our issue of December 1st, 1888. I have pronounced it an invariable remedy for the diseases of the kidneys and bladder, and I am able to sleep soundly and obtain rest at night, which for so long a time I could not do, and the weakness in the urinary organs has been relieved, and I greatly regret that I did not test the great merits of Hunt's Remedy when I was first taken sick. I am confident it would have saved me from several years of suffering, and I am more strongly convinced of its value after bearing of the most remarkable cure effected by Hunt's Remedy in a case of Bright's disease here given in our issue of December 1st, 1888. I have pronounced it an invariable remedy for the diseases of the kidneys and bladder, and I am able to sleep soundly and obtain rest at night, which for so long a time I could not do, and the weakness in the urinary organs has been relieved, and I greatly regret that I did not test the great merits of Hunt's Remedy when I was first taken sick. The Janesville Daily Gazette.

VOLUME 27

Entered at the Post Office at Janesville, Wis., as second-class matter.

JANESVILLE, WISCONSIN, FRIDAY, OCTOBER 12, 1883.

Published Every Evening Except Sunday, at 50 a Year.

NUMBER 187

Look out for an Ohio man in 1884.

The democrats have at last blundered into a victory.

The malaria seems to have lost a good deal of inspiration to the Ohio democrats.

The home and the school house have been pretty handsomely endorsed in Iowa.

The election of Hoadly is the first blood for Tilden. The old fox will not drown yet.

The democratic profession has the sympathy of the country. Langtry is on her way to America.

When General Sherman is retired next winter by reason of reaching 64 years, he will receive \$15,000 a year during his lifetime.

The Ohio democrats will probably tender a vote of thanks to the prohibitionists in that state. Without the latter they couldn't have elected Hoadly.

It will be in order for some one to start a boom for Hoadly for president. Every successful democrat must get a little boost for the white house.

The Maid of the Mist is a very courageous little craft. She ran the lower rapids of Niagara on Wednesday, and remained in the whirlpool ten minutes.

The later the returns from Iowa, the greater grows the plurality of Governor Sherman. It will be between 25,000 and 30,000, and over both Kinne and Weaver from 12,000 to 15,000 majority.

The government is no longer run by subordinates. For the first time in many weeks, all the heads of the departments including the president, were at their posts on Thursday.

It would be a good thing if all further presidential booms could be choked off for a while. It will be time enough for these booms when the frost is out of the ground next spring.

The news dealers at Burlington, Iowa, have set an example worthy of imitation by all news dealers throughout the country. They have discontinued the sale of the infamous Police Gazette.

Mr. A. C. Hastings, of Chicago, settles up with the government very satisfactorily to himself. Secretary Folger accepts \$1,250 as a compromise on a judgment of \$80,000. The judgment was obtained in one of the whisky suits.

"Our Carter" took the stump in Iowa for Judge Kinne, and Judge Kinne, was beaten by some 30,000. It would have been a good thing for the republicans if "Our Carter" could have gone to Ohio instead of Iowa.

Dr. Talmage wants little "Phil" Sheridan to go to Utah and clean out the poly gamists. General Sheridan could go it on short notice and with lively earnestness. If he can't wipe out the disgrace why not try the military with the gallant Sheridan in command?

The reason why Connecticut goes democratic: "Connecticut lies between New York and Massachusetts, the two wickedest states in the union, and in the natural interchange of race between these two great centers of crime they make a sort of highway of Connecticut."

The congressional election in the Sixth district of Iowa, still seems to be in doubt. One day the chances seem to be in favor of Judge Cook, the democratic candidate, but the next day the returns favor the election of Stiles, republican. It may require a canvass of the votes to decide who has the congressional plum.

It is very evident that Loren E. Seamen, who is charged with attempting to bribe Assemblyman Bradley, of New York, in the senatorial contest of 1881, will be acquitted. One of the jurors, Mr. Goodfellow, says he didn't know that Roscoe Conkling was ever in the United States senate. He is a good fellow to have on such an important jury.

Dakota does not intend to allow the educational interests of that territory to suffer for lack of funds. Every eighteenth section of land has been set apart for educational purposes. These lands cannot be sold for less than \$10 per acre, and large tracts, it is thought, will bring more. They aggregate 3,500,000 acres, and are valued at \$82,500,000. This is better than permitting the land to go into the hands of speculators.

Gould is trying to unload some of his money without actually throwing it away. He has the most costly yacht in the world. He now proposes to build a magnificent hotel and establish a great park at Burn's Point, not far from Newport, and thus compete with the latter place for summer visitors. Gould is not happy unless he is lavishly spending his money trying to beat some one.

Another new route to the Pacific will be opened on the 20th of this month, at which time through trains from St. Louis to San Francisco will begin to run. The route is from St. Louis over the "Prisco line" to Halsted, thence over the Atchafalaya, to Santa Fe to Albuquerque, thence over the Atlantic & Pacific to the Colorado river, and on to San Francisco over the Southern Pacific. The route is 250 miles shorter and twelve hours quicker than by the present Southern route via Deming, but there will be no reduction of fare.

After all the clamor in California for a restriction of the immigration of Chinese to that state, there is great lamenting among the horticulturalists because Chinese labor is scarce, and they ask the question, "What shall we do?" The answer to this is: "Go to work yourselves. A white man who works for wages on a California farm is expected to have his own blankets, sleep in the barn, and get his meals on a tin plate at the rear kitchen door. When work slacks up, he unavoidably becomes a tramp."

A New York paper recently published a list of the millionaires of that city, and General Grant's name was among them. He was supposed to find himself in the list, but he said by putting in his children and grand children at an average value of \$62,500 each, he thinks perhaps he can figure up that total. Let us see; he has four children and four grand children, which at \$62,500 each would aggregate \$500,000. This would make General Grant's estimate of his own wealth a about \$500,000.

THE OHIO SURPRISE.

One of the most unexpected happenings of the present fall was the democratic victory in Ohio. The democratic party in that state was in a quarrel all through the campaign. Judge Hoadly, who used to be a staunch republican, was nominated for governor over General Ward, an old-time democrat, and the fact that it was charged that Hoadly bought his nomination at a big price, disgusted the Thurman ring of the democracy, and the quarrel was kept up during the entire campaign. Hoadly was also sick for several weeks, and could not take an active part in the canvass. There was also a bitter strife going on in the democratic party as to the senatorship, which seemed to blast all hopes of democratic success.

On the other hand, the republicans were well organized, compact, and hopeful. It is true, however, that they went in to the canvass somewhat handicapped, as that party was the champion of the Scott law which fixed a tax upon the liquor traffic, and was more or less loaded with the prohibition amendment. But with a splendid organization and a strong vitality, the republicans had every reason for being confident, and therefore counted on a majority for Foraker of from 10,000 to 20,000. But the wool-growers and the wine-makers and thousands of prohibitionists flew to the relief of the democrats, and Hoadly and free whisky won the day.

The mischief does not end here. The democratic victory in Ohio this fall, makes that state all the harder for the republicans to carry in 1884. It makes it like New York, a doubtful state, and too many of those states very much lessen the chances of the republicans next year. But there is a world of vitality in the republican organization, and no republican can be found who will yet give up the election in 1884.

ILLITERACY IN THE SOUTH.

The census shows that the whole number of males of twenty-one years and upwards in the southern states who cannot write are 1,389,944, nearly one-third of the voting population of the sixteen states included in the division called the south. It will be surprising to learn that of this great number 410,550 are whites, the remainder, 979,394 being blacks. It is a fact worthy of note that Kentucky is the only state in the sixteen in which the meditated whites outnumber the meditated negroes.

The south is not doing much for popular education. Three years ago there were hundreds of counties in that section of the country that could not boast of a single school-house, and as a rule, where there was no school house there was no newspaper. With this condition of things, it is no wonder that both whites and the blacks lack the enterprise and intelligence that form the crowning glory of the north. But the south is improving somewhat—in fact a good deal of late—and by the time the next census is taken a better condition of things will be shown.

The southern states have been occupied lately as a missionary field by the Protestant Episcopal church, and the report made by the present general convention of that body, is not very flattering. The bishops seem to be very much discouraged, and how to work among the illiterate whites and blacks in the south with more success, was one of the grave matters for the convention to consider. The bishops do not appear to be practical in their ideas concerning church work among the ignorant. The first thing that needs to be done is the establishment of the common school system in all the counties in the southern states, for the illiterate people that direct instruction may be given them. When a man, be he white or black, knows how to write and read and can carry with him some of the useful knowledge gathered from books, he will be better able to practice, enjoy, and enable a christian life. Teach the southern people how to read the newspapers and books, and the question of religion among them will not be so grave a matter as the bishops of the Episcopal church now find it.

No medicine like Baxter's to prevent contagious diseases. Price 25 cents. Sold by Stearns & Baker.

A Clergyman's Testimony.

W. E. Gifford, pastor M. E. church at Bothwell, Ont., was for two years a sufferer with dyspepsia in its worst form until he was cured by the use of Dr. Williams' Pink Pills. Three bottles of Dr. Williams' Pink Pills cured him, and he tells us in a re-

cent letter that he considers it the best family medicine ever before the country for dyspepsia and liver complaint. Palmer & Stevens and Sherer & Co.

THE ELECTIONS.

The Rout of the Republicans in Ohio Last Tuesday was Most Complete.

Judge Hoadly's Majority Over Foraker Is Now Estimated at About 13,000.

The Legislature Overwhelmingly Democratic—List of the State Senators-Elect.

The Result in Iowa—The Official Count Will be Required in the Sixth Congressional District.

Ohio.

THE RESULT.

COLUMBUS, Oct. 12.—Complete but unofficial returns from all of the eighty-eight counties of the State show Hoadly's plurality over Foraker to be something over 13,000, but the rest of the ticket is less than 12,000. Hoadly has not a majority of all, as the prohibitionists cast more votes than his plurality, while the Greenbackers poll a little over 1,000 in a total vote of over 700,000. The Prohibition Amendment got over 300,000 votes.

Foraker made the most brilliant campaign of any candidate for Governor. Hoadly gained friends by the abuse heaped upon him and his sickness, and came back for the last week of the campaign just at the right time, and when the trading by the Republicans for him in the country and against the Second Amendment in the cities was at its height. In Cuyahoga and Hamilton counties the legislative delegations are divided. The Senate stands 33 Democrats to 11 Republicans; the House, 63 Democrats and 45 Republicans, being a majority of 23 on joint ballot for Senator.

The Second Amendment fell at least 40,000 short of a majority, receiving a total of about 300,000 votes. The Judicial Amendment is carried beyond a doubt. The first Temperance Amendment will not get over 100,000 votes. The vote for the Prohibition State ticket is estimated at from 5,000 to 10,000.

The Senatorial Districts and successful candidates are as follows, by counties: Hamilton, William Caldwell, William T. O'Brien, A. J. Pruden, Democrats. Butler and Warren, G. F. Elliott, Democrat. Montgomery and Preble, Simon Brunner, Democrat. Clinton and Deane, J. B. Myers, Democrat. Green, Clinton and Fayette, Jesse N. Oren, Republican. Highland and Ross, W. H. Reed, Democrat. Adams, Pike, Scioto and Jackson, John W. Gregg, Republican. Athens, Hocking and Fairfield, C. S. Welsh, Democrat. Franklin and Pickaway, A. B. Vandergriff, Democrat. Clark, Champaign and Madison, W. W. Duffinger, Republican. Miami, Darke and Shelby, A. C. Cable, Democrat. Logan, Union, Marion and Hardin, J. J. Hare, Republican. Washington, Morgan and Noble, Gilbert Smith, Democrat. Muskingum and Perry, John O'Neill, Democrat. Knox and Morrow, Allen Leavitt, Democrat. Coshocton and Tuscarawas, W. G. Crowell, Democrat. Belmont and Harrison, Solomon Hogue, Republican. Jefferson and Columbiana, J. M. Dickinson, Republican. Carroll and Starke, J. V. Lewis, Democrat. Trumbull and Mahoning, A. D. Cassatt, Republican. Ashland, Lake, S. H. Wolcott, Republican. Cuyahoga, A. J. Williams, Democrat; George H. Ely, Republican. Medina and Lorain, T. G. Loomis, Republican. Huron and Erie, Geoffrey Jaeger, Democrat. Seneca and Crawford, J. H. Williams, Democrat. Allen and Auglaize, T. J. Coffey and Elmer B. Jones, Republicans. Fulton and Hancock, W. H. McLyman and O. R. Ranney, Democrats.

CINCINNATI, Oct. 12.—Judge Hoadly spent several hours in his office, where he was visited by a large number of friends to congratulate him. He shows evidence of weakness, but endures bravely the task of continuous handwriting. Mr. Hoadly was consumed in receiving and reading telegrams of congratulation. Among them were these: "YORKERS, N. Y., Oct. 12.—I congratulate you on your brilliant triumph. S. J. TILDEN." Telegrams were received from Senator Jones, of Louisiana, Robert Garrett, of Baltimore, Senator Morton, August Belmont, and many others.

Iowa.

THE RESULT.

DES MOINES, Ia., Oct. 12.—The Democratic State Committee has closed its rooms, and Mr. Kinne and Mr. Sells have gone home. The Republican headquarters will be closed today. The size of Sherman's plurality is still uncertain, but will probably fall within the Democratic concession of 15,000 and the Republican claim of 30,000. The large Republican towns have done so much to reduce the usual Republican majority as the active canvass made by the Democrats. But the rural districts have stood with the "school-house on the hill." The Sixth District, which was conceded all day by the Republicans to Cook, is again claimed for Stiles. It is asserted by Chairman Doonan that returns from two outlying precincts have reduced Cook's majority to less than a hundred, and that frauds have been discovered in one of the Mahaska County precincts. A contest, it is said, will be begun.

Ex-Congressman Wolf, who was defeated for Speaker last session by Mr. Struble, is here, and has renewed his candidacy. It is thought by Governor Carpenter's friends that he may also be a candidate, but they do not say so positively. The slight reduction in the Republican membership of the house which is conceded has put the prohibitionists in considerable trepidation regarding the laws that were the real issue of the campaign. The Legislature will sit as follows: Senate—Republicans, 42; Democrats, 7. House—Republicans, 50; Democrats, 85; Greenbackers, 5.

—Ring Rule in St. Louis.

ST. LOUIS, Oct. 12.—The Police Commissioners put a carpenter at work at midnight and succeeded in locking out of office the chief, whom they had removed without charges. Citizens of East St. Louis allege that they will prove the existence of an arrangement by which a party of Chicago thieves were allowed to operate at the relay depot during last week on condition of dividing the spoils with city officials.

A Young Lady's Queer Death.

SHERBORN, Pa., Oct. 12.—A friend called upon Jennie Noon, at her home, last week, and expressed surprise at finding her alive, having heard of her death. The young woman told to the doctor, a swoon, and remained unconscious until her death, which has just occurred.

MURDERED AT NOONDAY.

A Read Between Two Rival Baltimore Democrats Results in the Death of One.

BALTIMORE, Md., Oct. 12.—James F. Bury, a noted local politician and city official, was shot four times and fatally wounded at noon Thursday in front of the City Hall, by William E. Harig, also a politician. Both men were Democratic and rival managers, and there has been a feud between them for years. At Wednesday's primaries there was a bitter contest over the shifery, and Bury's gun won. Thursday as Bury came out of the City Hall he was met by Harig and asked to be taken to a doctor. Harig had fired with deadly effect, four bullets striking Bury, four of them in the abdomen. John Flanagan, a bystander, was shot in the arm. Harig was untouched, all of Bury's bullets going wide of the mark. Bury is believed to be dying, and has taken leave of his family and friends.

Harig is confined at the Central Police Station under a strong guard, as Bury's friends threaten to kill him. He says he is glad his shot had fatal effects, as he shot to kill. Bury leaves a large family, and has held a number of prominent positions.

GOVERNMENT BONDS.

Another Call Contemplated by the Treasury.

WASHINGTON, Oct. 12.—The daily receipts of the Government from customs and internal revenue are so heavy that the surplus in the Treasury is kept at an unusually high figure. Thursday it reached nearly \$157,000,000, and suggested the possibility of another bond call by the Secretary to reduce the surplus. Mr. Folger, when informed of the figures, asked for estimates from the warrants drawn of the amounts required out of this sum to meet various obligations. The requirements of the Pension Office will be the main item in determining how large a call can be made. The 1st and final call of 8 1/2 per cent bonds for over \$30,000,000, which was made last week, called for \$3,000,000, has not yet been completed. The bonds are coming in very slowly, the receipts for redemption this week not exceeding \$250,000, while the total has only reached \$23,000,000. The policy of the Treasury Department in the future will be to keep up a smaller call than heretofore, and the three per cent indebtedness will gradually be reduced. It is not expected that these calls will inconvenience the National Banks very much, as there are but few of the three now on deposit to secure circulation.

Particulars of the Latest Cyclone.

LA CROSSE, Wis., Oct. 12.—Details of the cyclone that struck the little town of Arcadia Monday night show that it came from the south-west. Upon its approach the air was so charged with electricity that lights could not be made to burn, and people rushed to their cellars in the darkness to avoid the danger which seemed imminent. The atmosphere was of a peculiar reddish-brown color, with a strong sulphur odor; the deafening roar of the tornado was utterly indescribable. Barns and outbuildings were lifted from their foundations, torn to fragments and scattered promiscuously in all directions. Broken boards, trees, bricks and stones filled the air, and were hurled with such violence in some instances as to drive them through the sides of the buildings. The total damage will reach \$25,000. Mrs. Bessey and Miss Phipps, who were the most seriously injured by their falling residences, are considered out of danger. The cyclone seems to have spent its force up the North Creek Valley, doing the usual damage to property, but causing no loss of life.

Close of the Street Railway Convention.

CHICAGO, Oct. 12.—The Convention of Street Railway Superintendents has come to an end. The following officers were elected: W. H. Hazard, of Brooklyn, President; J. K. Lake, Chicago, First Vice President; G. B. Kesner, Cincinnati, Second Vice President; D. F. Longstreet, Providence, Third Vice President; Secretary and Treasurer, W. J. Richardson, Brooklyn. The Executive Committee consists of the following gentlemen: D. H. Little, Louisville; J. G. Holmes, Pittsburgh; J. E. Rugg, Boston; P. C. Mahoff, St. Louis; and Joseph Sharpe, New York. The next meeting of the Convention will be held in New York City in October 1884.

Great Profits.

NEW YORK, Oct. 12.—The earnings of sixty-nine railroads for the past month were \$27,532,082, against \$25,820,057 in September, 1882. Since January 1, 1883, the roads earned \$203,633,525, against \$190,561,637 for the same period last year, an increase of \$13,071,888. The roads earned on 51,730 miles of road this year, against 47,259 miles in 1882. The statement includes the operations of the Southwestern, the grangers, Northern Pacific, Manitoba, Grand Trunk and other leading companies.

An Alleged Swindler of Pensions.

GREEN BAY, Wis., Oct. 12.—W. H. Barton, United States Examiner of Pensions, has been arrested on a charge of extortion in exacting excessive fees from pensioners, and was taken to Milwaukee by United States Marshal Henry Marshall. He waived examination, and was held for trial in the sum of \$300. He will plead guilty as soon as he can raise money enough to cover his aggregate fines.

Well-Fixed Chinese Exclusionists.

SAN FRANCISCO, Oct. 12.—The steamer Hong Kong carried away nearly twelve hundred Chinamen, the largest number that ever sailed from this port. Of this over nine hundred were provided with return certificates. An item worthy of remark was that every one of the twelve hundred carried off with him from \$500 to \$1,000.

Disastrous Floods in Spain.

MADRID, Oct. 12.—Heavy rains recently in the Province of Castellon de Laplaya flooded that section of the country. Several miles of railway track were carried away and two bridges destroyed. Five villages were partially submerged and several lives lost. Fields and orchards sustained great damage.

Female Suffrage in New York.

LANSING, Mich., Oct. 12.—At the school election, Wednesday, the ladies cast 225 votes out of a total of 1,000. A number of women were challenged, it being alleged that they were imported from Troy. Several negroes were voted.

Dr. Townsend's celebrated Remedy for Hay Fever, Asthma, and Catarrh, used and recommended by Rev. Henry Ward Beecher. Sold by Stearns & Baker.

AMUSEMENTS.

MYERS' OPERA HOUSE

C. E. MOSELEY, Manager
